April 2004

April Meeting

April 20th is the next meeting at the Schaumburg Library at 7:30. We will be repeating an experiment that we tried two years ago. In this case, you can choose from seven images and one “clip art”. Using only those images and no other photography, you can interpret these in your favorite imaging software. Some images may need color and density corrections; others do not. So you can combine images, just perform normal corrections, apply filters, or whatever ideas you may have without adding other images other than what are supplied. Use as many images as you prefer, and make as many examples as you have the time and inspiration for. The idea here is **not** to spend a lot of time on finessing these images as to show the diversity of ideas in our club. The last time we did this, it was amazing how many different images/interpretations we got from only three images as the raw material. This is not a contest, and no scores will be given. Give it a try, because we want to see lots of examples, not award winning photography.

The images can be requested directly from me (benson.bob@comcast.net) or by downloading from our site (<http://www.imageination.com/picc/>). Email all finished images back to Dick Frieders at rmf1305@aol.com.

April Meeting, Part 2

After viewing the images from above, we will entertain questions/ problems/ solutions that you have had or still experiencing in the realm of digital imaging. If you are having problems with some aspect of digital photography, perhaps another member has a solution. Of course, we are also interested in any great technique you can share.

May Meeting

May 18th will be Best of the Year competition. Bring four of your best images that were entered in competition this season at Pixel. For those of us who entered the digital slide competition, please let Dick Frieders (rmf1305@aol.com) know your four choices.

Annual Pizza Party

May 25th will be the annual PIXEL pizza party. (Say that three times.) The club will be paying for the pizza. Spouses and significant others are invited. Details will follow.

George Lepp Seminar

A reminder about the George Lepp Seminar coming up shortly. Pixel members receive a \$10 discount. Check it out at

<http://www.chicameraclubs.org/leppseminar.htm>

Competition Results March 2004
